INVITATION TO SINGAPORE 2017

Subject: CALL FOR PRESENTATIONS
Dates of Symposium: 10th -12th August, 2017 (***ABSTRACT DEADLINE*** 15th March, 2017)
Location of Symposium: Novotel Hotel, Clarke Quay, Singapore
Title of Symposium: APPROACHES TO AURICULOTHERAPY: BRIDGING THE DIVIDE
BETWEEN EAST AND WEST

Purpose:

This international symposium will examine Auriculotherapy practices that have developed in Europe and America with Ear Acupuncture procedures that have evolved from Asia. World-renowned experts will present classical practices and innovative techniques that utilize acupuncture points on the external ear. This conference will serve to highlight the most recent clinical findings and evidenced-based research on Auriculotherapy and the different health conditions that can be effectively treated by this discipline. Master teachers will describe the theoretical principles and pragmatic applications for achieving optimal clinical results that utilize the most current medical devices and most accurate treatment approaches that selectively activate auricular acupuncture points. Auriculotherapy is growing international status as a fast acting, highly effective mode of modern medical treatment based on neuroscience and brain signaling changes. ***Clinicians new to auriculotherapy will gain benefit from the symposium's program of lectures and workshops.***

In addition to delegates from PRC, Japan and South Korea, the opportunity to learn Auriculotherapy from international experts should be of great interest to health care practitioners in Australia, New Zealand, Malaysia, Indonesia, Vietnam, Thailand, Cambodia, Laos, Philippines and Singapore. All of these countries have practicing acupuncturists that have not yet fully discovered the most clinically efficient procedures for the practice of Auriculotherapy.

Abstracts

Submissions are according to the attached presenter guidelines or by referring to the symposium website. ***The best 3 original research presentations will receive the Dr. Hilarie Lindsay Awards of AUD\$5000.*** Decisions by the scientific subcommittee will be final. Symposium proceedings will be featured in the journal ***Medical Acupuncture.***

The organizing committee looks forward to receiving your excellent submission!

Im Quah-Smith (President) & Committee: Terry Oleson (Vice President), Steven Aung (Vice President), Richard Niemtzow (Immediate Past President), Raphael Nogier (President, GLEM), Gerhard Litscher, Marco Romoli, Gary Stanton, Michel Marignan, Baixiao Zhao, Arnyce Pock, Claudie Terral, Igor Tchernikov, TT Ang

ABSTRACT SUBMISSION

Abstracts of potential presentations are solicited in areas of unique clinical techniques or recent research findings that include the practice of Auriculotherapy. Please upload this completed form to the submissions section on the website. Please complete in capital letters in English. ***Please note abstract deadline of 15th March, 2017.***
